PEPPER TRADING MARKET PORTFOLIO

Quality Spice Group Berhad is a Bumiputera-owned company with over a decade of experience in the Sarawak pepper industry. As we progress toward our strategic goal of becoming one of Malaysia's listed companies, we continue to strengthen our foundations built on quality, innovation and sustainable growth. Our well-engineered processing facility in Sibu, Sarawak enables us to deliver premium-grade black and white pepper to our established client locally and globally.

Quality Spice Group Berhad is a major player in the sourcing, processing, and global delivery of premium spice raw materials and commodities to our industrial and retail clients worldwide. We are methodically expanding our trading portfolio, strictly adhering to our core focus of building a strong relationship with our farmer network, ensuring reliable growth in our market share, and championing sustainability practices in our supply chain.

By utilizing our long-standing working relationships around the globe—from origin farms and cooperatives to logistics partners—we are proudly able to generate value for our investors and shareholders. This means more than just having a strong client base. Our Company already provides sourcing, processing, and distribution services to numerous global food majors, independent spice houses, flavor compound manufacturers, and national food agencies across many regions.

Our objective is simply consistent, high-quality, and specialized service delivered on a global basis in each key spice origin and consumption region where food companies operate. The services we offer start from our clients' perspective. We look at supply chain challenges—from harvest quality and compliance to complex logistics—from multiple angles, pooling our knowledge and resources to develop holistic services that fit our clients' ever-changing challenges and flavor/quality requirements.

Quality Spice

Dr. Mohammad Faiz
Managing Director

A dynamic and accomplished leader, Dr. Mohammad Faiz bin Mohd Sobri brings a rare combination of technical foundation and executive acumen to strategic development, finance, and the complex world of commodities.

Mr. Yii Min King
Finance Director

Also known as Mr Paul, is an accomplished entrepreneur with a strong footprint in Sarawak's agro-industrial sector. With successful ventures in latex, plywood manufacturing, and premium pepper processing, he brings decades of hands-on industry expertise to the company.

Paul's early achievements include thriving in latex and plywood businesses in Sarawak. His signature Paul brand successfully expanded into the United States market, earning FDA approval.

In the pepper industry, Paul holds a unique and highly respected position. Malaysia has only four certified black and white pepper processing facilities—three of which are operated by the Malaysian government under the Malaysia Pepper Board (MPB). The fourth, and the only privately managed one, is operated under Mr. Paul's leadership.

With his proven track record, global export experience, and deep technical understanding of pepper processing, Paul contributes strategic value to the company as a shareholder.

BOARD OF DIRECTORS & MANAGEMENT

Quality Spice

Quality Spice

OUR VISION

Combining industry expertise, modern processing capabilities, and sustainable partnerships with local farmers, we strive to build a trusted and responsible pepper supply chain that delivers consistent quality, supports community growth, and strengthens Sarawak's position as a global leader in premium pepper.

Quality Spice

OUR
MISSION

To bring the finest Sarawak pepper to the global market, combining premium quality, sustainable practices, and strict food safety standards.

Our mission is to bring the finest Sarawak pepper to the global market by upholding uncompromised quality, sustainable sourcing practices, and stringent food safety standards. We are committed to working closely with local farming communities to support responsible cultivation, enhance product consistency, and promote long-term industry growth. Through modern processing capabilities, transparent operations, and continuous innovation, we aim to provide our global partners and consumers with premium, traceable, and ethically produced pepper that reflects the rich heritage and excellence of Sarawak's spice industry.

OUR **CORE**
COMPETENCIES

Professional Team

Our company is supported by a seasoned professional with extensive expertise in the Sarawak pepper industry, having worked with leading pepper corporations both locally and internationally. This deep industry knowledge strengthens our operational efficiency and drives our strategic growth as we expand into new markets.

Facilities

Our dedicated pepper processing and handling facilities position us strategically within the industry, enabling us to optimize production flow, maintain strict quality control, and respond efficiently to market demand. These facilities give us the capability to scale operations, minimize risk, and seize new opportunities in the growing global pepper market.

Strong Ventures

Backed by experienced partners within the pepper and spice sector, our company benefits from valuable market insights, proven growth strategies, and well-established industry networks. This strong foundation enhances our credibility, supports sustainable expansion, and ensures we consistently meet the expectations of domestic and global clients.

Dr. Aiman Syafiq Group General Manager

Comprehensive strategic direction and governance are exercised by this executive to maximize stakeholder value, ensuring the group's sustainable global growth and adherence to core operational mandates.

Mr. Omar Dani

Manager Finance Department

Rigorous financial stewardship is executed by this function, encompassing the strategic deployment of capital, the mitigation of market and credit risk, and the acquisition of essential structured trade financing.

Mr. Faiq Ameir

Manager Operation Department

The optimization and integrity of the global logistics and supply chain architecture are mandated by this manager, ensuring superior quality assurance and efficiency from procurement to final delivery.

Mr. Amiruddin

Manager Corporate Relation Department

Critical external alliances are cultivated and institutional communications are managed by this role, thereby safeguarding corporate reputation and ensuring regulatory alignment across all operating territories.

OUR EXPERTS

Mr. Hanizam Albert
Manager Sales Department

Revenue generation is spearheaded through strategic market penetration and proficient key account management, expertly aligning the company's commodity supply with sophisticated client demand specifications.

OUR
EXPERTS

Quality Spice

GLOBAL |
PARTNERSHIP |

Partner Engagement

We collaborate closely with government agencies, agricultural boards, NGOs, and local farming communities to strengthen the development of the pepper industry. These partnerships ensure that our sourcing practices uplift smallholder farmers, enhance rural economic growth, and promote sustainable cultivation methods across Sarawak.

Technology Oriented

We partner with technology providers, research institutions, and agri-tech startups to advance innovation in pepper cultivation, processing, and quality assurance. These collaborations support improvements in farm productivity, and data-driven quality control. Leveraging modern technology helps us maintain competitive advantage and deliver superior pepper products to international clients.

Strategic Alliances

We form strategic alliances with domestic and international partners within the spice, food manufacturing, and agricultural sectors. These alliances enable shared investments in processing facilities, quality enhancement programs, logistics capabilities, and market expansion initiatives. By working together with industry leaders, we increase production efficiency, maintain consistent supply, and open new global markets for premium Sarawak pepper.

While global demand for pepper continues to play a vital role across the food, manufacturing, and spice industries, pepper companies must navigate a complex landscape shaped by shifting market trends, technological advancements, regulatory requirements, and environmental challenges. To ensure long-term sustainability and profitability, the industry must continuously adapt through responsible sourcing, innovation, and strategic operational growth.

FUTURE

OUTLOOK

With increasing geopolitical uncertainties and climate-related challenges, ensuring supply chain resilience within the pepper industry has become essential. We are committed to strengthening our supply chain through diversification, secure sourcing practices, and robust risk management strategies to maintain consistent, reliable delivery of Sarawak pepper to our global partners.
